STATE INSPECTION CENTER CHECKS ON INDUSTRY -- Szabad Hap, No 52, 3 Mar 49

The AEK (Allami Ellenorvizi Kozpont, State Inspection Center) reports that it conducted 1,893 examinations between June 1948 and 31 December 1948. Offenses were reported in 64 cases and 47 of these resulted in criminal prosecution. In other instances the technical inspectors suggested operational changes to bring about savings in material and manpower. Among the plants where there was excessive waste in material were the Magyar Vegyipari Gepgyar (Hungarian Chemical Machine-building Plant), the Magyar Maszalygyar (Hungarian Rayon Plant) and the Dunatuli Textilipar (Trans-Danubian Textile Industry).
